Dear Miss Walker,

Sands, to-day, gave me  
the enclosed order for you - They like  
the duck very much, just as it is &  
they like the goose too; but not the way  
in which it is mounted - They would  
like it after the style of the duck with the  
same green background & brown border.

They have given me a tracing to forward  
to you so you will see by that exactly  
what they want -

They will supply the calendar tabs and  
also the struts -

I do wish they had taken the others  
as well - Though they admire them  
very much & think the berries beau-  
tiful they say there is no sale for Jarmain  
berries here - They do not like the  
dark mounts -

I use "ivory" board for most of my  
work -

I think it would be as well to "fill"
